

BILDON TOWN COUNCIL

4 year budget projection					
prepared Sept 2022					
Notes					
The precept shown does not reflect any change to the tax base or the Band D amount					
Staffing - based on current NJC negotiations & increases in NI & Pension					
Allotments & Harley Event - projection is shown drawing down on the earmarked reserves					
CIL - £2,257 of reserves must be spent by May 2025; a further £2,802.80 by April 2026					
NB the Reserves are calculated as at the start of the year; i.e. 1.4.25 shows the ending position at 31.3.25					
The balance of General Reserves at 1.4.26 is acceptable, representing 6 months expenditure					
Further drawdowns of current excess Earmarked Reserves could be considered to reduce in-year expenditure					
Note that Earmarked Reserves should be for a specific project or scheme					
Committees should plan to spend their in-year budget as allocated. If they do not, and there is no formal plan or project nominated, then the excess funds should be allowed to fall into the General Reserves and not be carried forward as a "pot" of money in Earmarked Reserves for some future undefined reason.					
Building up an excess of earmarked reserves without a defined scheme will put a strain on the calculation of the precept, leading to a potential increase to taxpayers due to the requirement to maintain adequate General Reserves					
4 year budget projection
